Summary

Full-stack developer and AI & ML engineering student (SGPA 9.24) with a strong foundation in building and shipping production-ready web applications. Experienced in end-to-end development using the MERN stack, real-time systems with Socket.IO, and geolocation-driven platforms. Recognized at the state level for technical and academic excellence. Passionate about writing clean, scalable code and solving real-world problems that create meaningful user impact.

Education

PES Modern College of Engineering, Pune *2024 – 2027*
B.E. in Artificial Intelligence & Machine Learning SGPA: 9.24 / 10

Jaihind Polytechnic, Kuran, Pune *2021 – 2024*
Diploma in Computer Engineering Percentage: 89.94%

Technical Skills

- **Languages:** C++, Python, JavaScript, TypeScript, Java, HTML/CSS
- **Frontend:** React.js, Tailwind CSS, Bootstrap
- **Backend / Database:** Node.js, Express.js, MongoDB, PostgreSQL, MySQL, REST APIs
- **ML / AI:** OpenCV, scikit-learn, dlib, Hugging Face, TensorFlow
- **Tools:** Git, GitHub, Docker, CI/CD, Socket.IO, JWT, Vercel, VS Code, Stream API

Projects

NestMate — Flatmate & Rental Discovery Platform with Real-Time Chat *React.js, Node.js, MongoDB, Socket.IO, Tailwind CSS, JWT*

- Built a full-stack flatmate-finding platform where users list rooms and discover flatmates based on location, budget, and lifestyle preferences.
- Integrated real-time in-app chat using Socket.IO enabling instant messaging between potential flatmates with online presence indicators and message persistence.
- Implemented JWT-based authentication, advanced search/filter, scalable RESTful APIs, and deployed on Vercel with optimized MongoDB schemas.

BloodConnect — Emergency Blood Donor Network *React.js, Node.js, MongoDB, Geolocation API, Tailwind CSS*

- Engineered a real-time platform matching patients with nearby verified blood donors using geolocation search and MongoDB $near geospatial queries.
- Built hospital dashboard for request management, donor availability tracking, and urgency-based filtering with mobile-first responsive UI.
- Deployed on Vercel with multi-role access for donors, patients, and hospitals; supports live donor availability status updates.

YelpCamp — Campground Listing Platform *Node.js, Express.js, MongoDB, Passport.js, Cloudinary, Mapbox*

- Full-stack campground platform with complete CRUD, RESTful routing, Passport.js auth, Cloudinary image uploads, and interactive Mapbox maps.
- Secured with Helmet, mongo-sanitize, and express-rate-limit; production-grade session handling and authorization middleware throughout.

Experience

Web Development Intern — Omegasoft Technologies Pvt. Ltd., Pune *Jun 2023 – Jul 2023*

- Developed React.js frontend components and integrated them with Node.js/MongoDB backend APIs in a professional Agile team environment.
- Implemented CRUD operations, optimized database queries, and followed Git-based version control and peer code review practices.

Achievements & Certifications

- **Solved 80+ Problems on LeetCode** — Consistently practicing data structures and algorithms to strengthen problem-solving skills. leetcode.com/u/GawULSVCu5
- **Selected for State-Level Project Expo at JCOE** — Selected among competing teams to present a technical project at a state-level Project Expo, representing the college against participants from across Maharashtra.
- **The Web Developer Bootcamp — Udemy**, Colt Steele, 2023 — Completed an industry-recognized 65+ hour full-stack web development course covering HTML, CSS, JavaScript, Node.js, Express, and MongoDB.
